Western Classic Junior Dairy Show Showring Policy and Code of Ethics

Western Classic Junior Dairy Show has the responsibility of maintaining fairness and ethics for all exhibitors. The regulation of unethical practices is necessary to maintain a positive reputation and to make sure good animal husbandry is on display for all youth participating at the show as well as spectators.

A Western Classic Junior Dairy Show Ethics Committee has been formed. Committee members will be on the grounds throughout the show. Should a violation be seen or reported, the Committee will decide how to handle the violation and what disciplinary action is necessary.

The following are examples of practices or procedures that are violations of the Western Classic Junior Dairy Show Showring Policy and Code of Ethics, these include but are not limited to:

1. Misrepresenting the age, lineage/breed and/or milking status of the animal for the class in which it is entered.
2. Treating an animal, particularly the udder, without a verifiable need for that treatment, internally or externally, for the purpose of improving the appearance.
3. Using a device to artificially create or enhance the udder crease. Note: Ice pieces may be used on an animal if they are contained in a plastic bag.
4. Administering an injected or applied anesthetic to alter the carriage of the tail or other body parts.
5. Surgically or unethically inserting any matter under the skin or into any body cavity to change the natural contour or appearance of the animal's body. No administration of fluids by mouth is allowed unless it is deemed therapeutically necessary.
6. Criticizing or interfering with the judge, show management or other exhibitors while in the showring, on show grounds and/or before and after the show.
7. Challenging, threatening, criticizing or interfering with an ethics committee member or volunteer appointed by show management to monitor the animals on exhibit on the show grounds.
8. Failing to provide proper/accurate animal and/or personal identification when asked by ethics personnel or show management.
9. Adding real or artificial hair or hair-like substances to any part of the animal, except for false switches.
10. Excessively manipulating topline and/or tailhead hair beyond 1 1/2 inches from the skin.
11. Changing the natural color of the animal is prohibited. However, external applications of cosmetics that affect only appearance may be used, including by way of example color touch up of the topline, hoof polishes and false switches.
12. Mistreatment of an animal.
13. Unsportsmanlike conduct on the part of showmen or their representative(s).
14. Improper fitting practices, such as over filling and over bagging.
15. Any unethical practices or procedures not listed above that warrant review.

To detect unethical procedures, show management may use technologies for testing animal body fluids or tissues and examination techniques, such as ultrasound. An exhibitor, by making an entry, is consenting to the collection of materials, e.g. milk, blood, hair, etc., photographic or direct examination, if deemed necessary, at any time the animal is on grounds. Furthermore, by making an entry, the owner(s) and/or exhibitor, as well as any individual handling, caring for or fitting the animal, is agreeing to supply proper animal and personal identification when asked by Ethics Committee or Show Management.
